Full-Stack .NET Trainee
Digital Egypt Pioneers Initiative – Round 4 | October 2025 – Present

- Receiving structured training in Full-Stack .NET development.
- Studying SQL Server, C#, and Object-Oriented Programming concepts.
- Solving technical tasks focused on backend logic and database operations.

Frontend Development Intern
National Telecommunications Institute | July 2025 – August 2025

- Completed a frontend training program covering HTML, CSS, JavaScript, and Bootstrap.
- Built a complete frontend project as a final assessment.
- Gained hands-on experience in responsive design and UI development.

TECHNICAL SKILLS

Backend & Programming

- C# (Basics, OOP concepts)
- Object-Oriented Programming (OOP)

- SQL Server (CRUD operations, queries)

Frontend

- HTML5
- CSS3
- JavaScript
- Bootstrap

Tools & Technologies

- Git & GitHub
- Visual Studio
- VS Code

PROJECTS

Library Management System | Team Project
Technologies: Django, SQL, HTML, CSS, JavaScript
GitHub | July 2025

- Developed a full library system that allows users to register, log in, search for books, add favorites, and borrow books.
- Implemented complete CRUD operations on both frontend and backend.
- Built authentication and authorization features for users, admins, and staff.
- Enabled admins and staff to manage books and library content.

Bakery E-Commerce Website | Solo Project
Technologies: HTML, CSS, JavaScript
GitHub | August 2025

- Designed and developed a responsive frontend e-commerce website.
- Implemented product listing, filtering, and selection features.
- Focused on clean UI, soft color palettes, and user-friendly experience.
- Allowed users to browse products and simulate purchasing flow.

ACHIEVEMENTS

- **ECPC Participant:** Competed in the Egyptian Collegiate Programming Contest
- **Active Problem Solver:** Regular participant on Codeforces platform and HackerRank

---
